

# Diamond-Grip

## Specifications

January 2009

<u>Description:</u>	A diamond-plated textured rubber matting / flooring which is designed for added traction and appeal to modern aesthetic sensibilities. This is a rolled rubber-flooring product, which is available in seamless lengths up to 50ft long.
<u>Material:</u>	SBR, Reclaimed and Recycled Rubber products
<u>Width:</u>	48 inch
<u>Length:</u>	50ft rolls (custom lengths available)
<u>Thickness:</u>	3mm or 0.12inch, & 6mm or 0.48inch thick
<u>Weight:</u>	3mm 0.9lbs per square foot, 6mm 1.8lbs per square foot,
<u>Hardness:</u>	60 Shore A Nominal
<u>Compression:</u>	36% @ 50 PSI
<u>Tensile Strength:</u>	600 PSI
<u>Available Colors:</u>	Black
<u>Applications:</u>	Airports, Animal Transporters, Anti-Slip Surface, Aquariums, Art Studios, Auto Shop Lobby, Banks, Bars, Basements, Bathrooms, Boats, Car Mats, Casinos, Clubs, Factory Aisles, Department Store Aisles, Concrete Deterioration Prevention, Construction Areas, Daycares, Dishwashing, Doggie Daycares, Dugouts, Elevators, Entranceways, Escalator Aprons, Factories, Fast Food Facilities, Floor Protection, Flower Shops, Garages, Greenhouses, Gyms, Patios, Ice-Rinks, Industrial Corridors, Laundry Areas, Libraries, Locker Areas, Make-up Rooms, Medical Centers, Museums, Music Studios, Noise Reduction, Non-porous Surface, Pet Bedding, Pharmacy, Post Offices, Prison/Jails, Restaurant, Retail Stores, RVs, Salons, School Facilities, Shoe Stores, Shop Floors, Spas, Storage Rooms, Vapor Barrier, Vet Facilities, Walkways, Warehouses, Wet Areas, Work Areas.
<u>Excellent Traction:</u>	The Diamond-Grip offers excellent traction through its diamond-plated rubber texture. The natural high coefficient of friction found in rubber in addition to the diamond plate surface pattern, combine to maximize surface traction. The embossed diamond plate is designed for medium to high traffic areas where added traction is ensured with this rubber surface.
<u>Modern Design:</u>	This modern sleek low-profile and diamond plated rubber product is an excellent choice in rubber flooring. In commercial applications where surface traction from a multi-directional easy to move flooring is required, the Diamond-Grip is an excellent aesthetic choice.
<u>Temporary Installations:</u>	For temporary type fixtures, the either the 6mm or 3mm Diamond-Grip is recommended. A 10ft length of the 6mm Diamond-Grip weighs almost 75lbs; therefore this product is generally heavy enough to stay down under its own weight.
<u>Textured Base:</u>	With a fabric base finish which adds subsurface traction, the runner's bottom surface helps secure the Diamond-Grip runner mat to the floor, even when adhesive is not present.
<u>Custom Cuts:</u>	The Diamond-Grip can be purchased in any length in half-foot increments. Being a sheet good, it can be custom die, laser, or water jet cut to match any dimension or size required. It could also be easily cut using a sharp utility knife on location to meet any dimensional requirement.
<u>Cleaning:</u>	Since this product offers moderate chemical resistance, it can be cleaned with most common household cleaners. Strong, highly caustic cleaning solutions (e.g. bleach) is not recommended.
<u>Availability:</u>	The Diamond-Grip is always in stock, and will generally ship the same day (allow 24-48 hours for custom cut lengths).

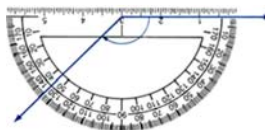

### Price

#### Thickness x Width x Length

	<u>Price</u>	<u>Availability</u>
3mm x 48" x 50ft	\$306.00 per roll	Generally in stock
3mm x 48" x custom lengths	\$8.50 per linear ft. (custom lengths up to 50ft)	24-48 hour fabrication time
