

Corrugated Rubber Matting (Composite Rib)

Specifications
August 2021

<u>Description:</u>	Composite Rib corrugated rubber flooring offers added traction with extra grooves and protrusions and is one of our 4 varieties of ribbed rubber products. This mat combines two styles of rubber corrugations (the Fine Rib and the Wide Rib) and is therefore more prone to scraping action and offers added grip for applications with heavy foot traffic. The extra ribs and corrugations offer more dirt and moisture trapping qualities, making for an excellent non-slip floor in wet environments. The Composite Rib is ideal as an industrial floor mat because it is resilient and affordable.
<u>Material:</u>	100% SBR
<u>Width:</u>	36 inch or 48 inch
<u>Length:</u>	50ft rolls, Custom lengths up to 50 continuous feet are available upon request.
<u>Thickness:</u>	3mm or 0.12 inches (just under 1/8 inch)
<u>Weight:</u>	0.9 lbs per square foot
<u>Hardness:</u>	60 Shore A Nominal
<u>Compression:</u>	36% @ 50 PSI
<u>Tensile Strength:</u>	600 PSI
<u>Available Colors:</u>	Black
<u>Applications:</u>	Anti-Slip Protection, Boat Flooring Material, Buses, Catered Events, Commercial Vehicles, Construction Corridors, Deck Flooring, Entryways, Equipment Floor Mats, Flooring for Wet Basement, Garage Flooring, Golf Courses, Hotels, Horse Trailer Mats, Indoor/Outdoor Aisleways, Industrial Shelves, Industrial Floor Surface, Kennel Mat, Kitchen Runner, Livestock Trailer Flooring, Long Doormats, Marine Floor, Movie Sets, Non-Slip Mat, Office Buildings, Office Entryways, Outdoor Door Mat, Outside Flooring, Party Rental Companies, Protection Mats, Restaurant Mat, Roll Mats, Rubber Runner Mat, Scraper Runners, Shelf Liners, Skating Rink Flooring, Special Event Ground Covering, Spike Proofs Applications, Storeroom Flooring, Toolbox Liners, Trailer Mat, Van Floor Mat, Vibrations Controls, Warehouse Walkways, Wet Areas, Work Mats, Work Bench Mats.
<u>Indoor and Outdoor:</u>	This rubber flooring mat demonstrates excellent life indoor and outdoor. It can be used as a safety floor in wet commercial walkways to protect foot-traffic from slips or put over your indoor permanent floors during wet spells to protect your investment.
<u>Permanent Installations:</u>	The Composite Rib is a rubber flooring roll that can be permanently installed with the Chemrex® CX-941, a polyurethane based adhesive.
<u>Temporary Installations:</u>	For modular applications or seasonal events (e.g. catered parties), this rubber mat can be held in place with a double sided carpet tape. The two-sided tape which is applied to the edges and entryways is an excellent and assertive means to hold it down.
<u>Sub-Surface:</u>	The textured fabric finish on the subsurface of the rubber matting adds extra grip in temporary uses where adhesives or tape are not being used.
<u>Modular Flooring:</u>	The Composite Rib rubber runner is lightweight and used in functions that require ease of mobility. It can be packed and stored away for later use without difficulty.
<u>Custom Cuts:</u>	This rubber mat is offered in 36 inch and 48-inch widths and can be purchased in any length in half-foot increments up to 50 continuous feet in either dimension.
<u>Cleaning:</u>	The resilient rubber floor surface resists common liquids. Any common commercial or household-cleaning agents can clean the runner or it can be hosed or mopped for outdoor applications.
<u>Availability:</u>	This rubber runner is generally in stock and will usually ship the same day (please allow 24-48 hours for custom cut lengths).
<u>California Prop 65:</u>	 WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov .
