<u>Linear Design:</u>	Linear A and Linear B were names given to two related forms of linear Minoan writing discovered 1894-1901. Archaeologist Arthur Evans named the script 'Linear' because its characters consisted simply of lines inscribed in clay, in contrast to the more pictographic and three-dimensional characters in Cretan hieroglyphs that were used during the same period. The use of this word in the name of our product denotes its elegant straight and narrow design. This is a runner that will be well suited for both indoor and outdoor corridors and hallways.
