

ZCycle Tiles

Specifications

August 2021

<u>Description:</u>	These are an easy-to-install interlocking rubber tile. Made from recycled automobile tires, this crumb rubber tile is an affordable product due to its reprocessed nature. It is extremely affordable yet incredibly durable. This product is perfect for weight rooms, as garage flooring, or basement surfacing.
<u>Materials:</u>	Recycled Tire Crumb
<u>Thickness:</u>	3/8-inch
<u>Available Sizes:</u>	28 1/2 in x 28 1/2 in
<u>Weight:</u>	12lbs
<u>Available Colors:</u>	Black with White Speckles
<u>Applications:</u>	Animal Care, Anti-Fatigue, Assembly Lines, Basement Mats, Comfort Matting, Commercial Fitness Facilities, Exercise Studios, Factories, Garage Floors, Gym Flooring, Home Gyms, Industrial, Kennels, Kitchens, Lifting Equipment, Man Cave Floors, Manufacturing, Martial Arts, Non-Slips Tiles, Playground Surfacing, Restaurants, Sound-Proofing, Sports Facilities, Stalls, Studios, Sub-Floor Protection, Treadmills, Weight Rooms, Yoga Studios.
<u>Easy Installation:</u>	These rubber tiles can be installed by simply interlocking them together. There is no need for adhesives, making it excellent as temporary or modular flooring option. The rubber tiles will stay down underneath their own weight.
<u>Recycled Product:</u>	ZCycle Tiles are made completely out of recycled rubber content, making them an eco-conscious product. How effective are the recycling efforts? California is faced with the significant challenge of diverting or safely managing more than 40 million reusable and waste tires generated each year. It is estimated that fewer than 50,000 waste tires remain in stockpiles throughout California. These stockpiles pose a potential threat to public health, safety, and the environment.
<u>Durable:</u>	Made from high-quality tire crumb content, these tiles are made to last and withstand the most abrasive of environments. They are perfect for body-builders and their heavy gear and will also support expensive workout equipment.
<u>Affordable:</u>	The materials used to make these tiles, as well as the low installation and maintenance costs, make them a great investment. You'll get more than what you paid for out of these tiles for years to come.
<u>White Speckles Origin:</u>	If you're curious about the white speckles—they are from the white walls of tires. Although wide whitewalls are virtually nonexistent as a factory option on modern automobiles, they are still manufactured in original bias-ply or radial form by specialty outlets. Modern trends lean toward more minimal styling, and large wheels favor very low-profile tires, leaving little room for a whitewall.
<u>Cleaning:</u>	This product can be cleaned using any everyday household cleansers or cleaning implements.
<u>Availability:</u>	The ZCycle Tiles are always in stock and will generally ship within 24 hours
<u>California Prop 65:</u>	⚠WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov .
