

# Diamond-Plate (Metallic) Step Mats

Specifications  
January 2025

<u>Description:</u>	A tough and durable PVC step mat that is perfect for areas that see high foot traffic. The surface texture features raised lines that assist in gripping feet, giving them more traction and increasing the overall safety. This rectangular non-slip stair tread will not be affected by moisture and is built to last. The Diamond-Plate Metallic step mats are available in two sizes (10" x 36" and 10" x 48") and three colors (Silver, Beige).
<u>Material:</u>	PVC
<u>Size:</u>	10" x 36" and 10" x 48" (Sold in 6-packs)
<u>Thickness:</u>	2.5mm or just under 1/8" inch thick
<u>Weight:</u>	10" x 36" 2.25lbs per mat, 13.5lbs per 6-pack 10" x 48" 3.0lbs per mat, 18lbs per 6-pack
<u>Hardness:</u>	75 Durometer
<u>Available Colors:</u>	Silver, Beige
<u>Applications:</u>	Indoor Stairs
<u>PVC</u>	PVC, the monomer is vinyl chloride, a simple compound consisting of carbon, hydrogen, and chlorine atoms. Its chemical formula is C <sub>2</sub> H <sub>3</sub> Cl. presence of chlorine atoms in PVC makes it inherently flame-resistant and less likely to support combustion. PVC step mats are durable and can withstand harsh environments. They are very abrasion resistant and can with stand heavy foot traffic. PVC has good thermal stability, maintaining its properties at a wide range of temperatures. PVC is inherently waterproof and that will help protect your indoor stairs from the harsh intrusion of wet feet.
<u>Non-Slip Stair Treads</u>	Why are no-slip tread mats required on slippery stairs? In the United States, there are about 12,000 deaths per year from falling down stairs. This makes falling down while using stairs the second leading cause of accidental injury in the country, after motor vehicle accidents. Per the National Library of Medicine "An estimated 24,760,843 patients were treated in emergency departments for a stair-related injury during the 23-year study period, averaging 1,076,558 patients annually, or 37.8 injuries per 10,000 United States residents. "
<u>Installation:</u>	This product can be quickly and effectively installed using a double-side tape. For more permanent applications this flooring roll can be installed with a polyurethane-based adhesive. Please consult our customer service with questions about installation at 1-844-Rubber-4.
<u>Easy to Cut:</u>	The PVC material of this flooring can be cut with the use of a utility knife. For the best cutting results, use your utility knife in conjunction with a straightedge.
<u>Cleaning:</u>	This vinyl stair treads can be cleaned with most common household cleaners and degreasers. This product is moisture resistant.
